# I. Introduction and Background

## A. About Kaiser Permanente

Founded in 1942 to serve employees of Kaiser Industries and opened to the public in 1945, Kaiser Permanente is recognized as one of America's leading health care providers and nonprofit health plans. We were created to meet the challenge of providing American workers with medical care during the Great Depression and World War II, when most people could not afford to go to a doctor. Since our beginnings, we have been committed to helping shape the future of health care. Among the innovations Kaiser Permanente has brought to U.S. health care are:

- Prepaid health plans, which spread the cost to make it more affordable
- A focus on preventing illness and disease as much as on caring for the sick
- An organized, coordinated system that puts as many services as possible under one roof—all connected by an electronic medical record

Kaiser Permanente is an integrated health care delivery system comprised of Kaiser Foundation Hospitals (KFH), Kaiser Foundation Health Plan (KFHP), and physicians in the Permanente Medical Groups. Today we serve approximately 12.6 million members in nine states and the District of Columbia. Our mission is to provide high-quality, affordable health care services and to improve the health of our members and the communities we serve.

Care for our members and patients is focused on their total health and guided by their personal physicians, specialists, and team of caregivers. Our expert and caring medical teams are empowered and supported by industry-leading technology advances and tools for health promotion, disease prevention, state-of-the-art care delivery, and world-class chronic disease management. Kaiser Permanente is dedicated to care innovations, clinical research, health education, and the support of community health.

## B. About Kaiser Permanente Community Health

Kaiser Permanente is dedicated to providing high-quality, affordable health care services and to improving the health of our members and the communities we serve. We believe good health is a fundamental right shared by all and we recognize that good health extends beyond the doctor's office and the hospital. It begins with healthy environments: fresh fruits and vegetables in neighborhood stores, successful schools, clean air, accessible parks, and safe playgrounds. Good health for the entire community requires equity and social and economic well-being. These are the vital signs of healthy communities.

Better health outcomes begin where health starts, in our communities. Like our approach to medicine, our work in the community takes a prevention-focused, evidence-based approach. Our community health strategy focuses on three areas:

- Ensuring health access by providing individuals served at Kaiser Permanente or by our safety-net partners with integrated clinical and social services.
- Improving conditions for health and equity by engaging members, communities, and Kaiser Permanente's workforce and assets.
- Advancing the future of community health by innovating with technology and social solutions.

For many years, we've worked side-by-side with other organizations to address serious public health issues such as obesity, access to care, and violence. We've conducted Community Health Needs Assessments to better understand each community's unique needs and resources. The CHNA process informs our community investments and helps us develop strategies aimed at making long-term, sustainable change—and it allows us to deepen the strong relationships we have with other organizations that are working to improve community health. For information on the CHNA, please refer to the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

### **C. Purpose of the Report**

Since 1996, Kaiser Foundation Hospitals (KFH) in Northern and Southern California (NCAL, SCAL) have annually submitted to the California Department of Health Care Access and Information (HCAI) a Consolidated Community Benefit Plan, commonly referred to as the SB 697 Report (for Senate Bill 697 which mandated its existence). This plan fulfills the annual year-end community benefit reporting regulations under California Health and Safety Code, Section 127340 et seq. The report provides detailed information and financial data on the Community Benefit programs, services, and activities provided by all KFH hospitals in California.

## **II. Overview and Description of Community Benefit Programs Provided**

### **A. California Kaiser Foundation Hospitals Community Benefit Financial Contribution**

In California, KFH owns and operates 36 hospitals: 21 community hospitals in Northern California and 15 in Southern California, all accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). KFH hospitals are located in Anaheim, Antioch, Baldwin Park, Downey, Fontana, Fremont, Fresno, Irvine, Los Angeles, Manteca, Modesto, Moreno Valley, Oakland, Ontario, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Jose, San Leandro, San Rafael, Santa Clara, Santa Rosa, South Bay, South Sacramento, South San Francisco, Vacaville, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills.

In 2022, Kaiser Foundation Hospitals in Northern and Southern California Regions provided a total of \$1,056,168,474 in Community Benefit for a diverse range of community projects, medical care services, research, and training for health and medical professionals. These programs and services are organized in alignment with SB697 regulations:

- Medical Care Services for Vulnerable Populations
- Other Benefits for Vulnerable Populations
- Benefits for the Broader Community
- Health, Research, Education and Training

A breakdown of financial contributions is provided in Tables A. Note that 'non-quantifiable benefits' will be highlighted in the Year-End Results section of KFH Community Benefit Plan, where applicable.

<b>Subtotal</b>	<b>\$181,227,448</b>
<b>TOTAL COMMUNITY BENEFITS PROVIDED</b>	<b>\$1,056,168,474</b>

## B. Medical Care Services for Vulnerable Populations

### Medi-Cal

Kaiser Permanente provides coverage to Medi-Cal members in 22 counties in California through both direct contracts with the Department of Health Care Services (DHCS), and through delegated arrangements with other Medi-Cal managed care plans (MCPs). Kaiser Permanente also provides subsidized health care on a fee-for-service basis for Medi-Cal beneficiaries not enrolled as KFHP members. Reimbursement for some services is usually significantly below the cost of care and is considered subsidized care to non-member Medi-Cal fee-for-service patients.

### Charitable Health Coverage

The Charitable Health Coverage program is a unique approach to caring for low-income uninsured persons in the community. The program provides a premium subsidy to low-income individuals and families who are not eligible for other public or privately sponsored coverage. Eligible participants receive a regular Health Plan membership card and have access to the same services and providers as other health plan individual and family plan members. Charitable Health Coverage Program members also receive cost sharing support that eliminates out of pocket costs for most covered services provided at Kaiser Permanente facilities.

### Medical Financial Assistance

The Medical Financial Assistance program (MFA) helps low-income, uninsured, and underinsured patients receive access to care. The program provides temporary financial assistance or free care to patients who receive health care services from our providers, regardless of whether they have health coverage or are uninsured. The MFA program is one of the most generous in the health care industry and is available to those patients in greatest need.

## C. Other Benefits for Vulnerable Populations

### Watts Counseling and Learning Center (SCAL)

Since 1967, the Watts Counseling and Learning Center (WCLC) has been a valuable community resource for low-income, inner-city families in South Central Los Angeles. WCLC provides mental health and counseling services, educational assistance to children with learning disabilities, and a state-licensed and nationally accredited preschool program. Kaiser Permanente Health Plan membership is not required to receive these services and all services are offered in both English and Spanish. This program primarily serves the KFHP-Downey, KFHP-South Bay and KFHP-West LA communities.

### Educational Outreach Program (SCAL)

Since 1992, Educational Outreach Program (EOP) has been empowering children and their families through several year-round educational, counseling, and social programs. EOP helps individuals develop crucial life-skills to pursue higher education, live a healthier lifestyle through physical activity and proper nutrition, overcome mental obstacles by participating in counseling, and instill confidence to advocate for the community. EOP primarily serves the KFHP-Baldwin Park community.

### Youth Employment Programs (NCAL and SCAL)

Youth workforce programs such as the Summer Youth Employment Programs, IN-ROADS or KP LAUNCH focus on providing underserved diverse students with meaningful employment experiences in the health care field. Educational sessions and motivational workshops introduce them to the possibility of pursuing a career in health care while enhancing job skills and work performance. These programs serve as a pipeline for the organization and community-at-large, enhancing the future diversity of the health care workforce.

## **D. Benefits for the Broader Community**

### **Community Health Education and Health Promotion Programs (NCAL and SCAL)**

Health Education provides evidence-based clinically effective programs, printed materials, and training sessions to empower participants to build healthier lifestyles. This program incorporates tested models of behavior change, individual/group engagement and motivational interviewing as a language to elicit behavior change. Many of the programs and resources are offered in partnership with community-based organizations, and schools.

### **Kaiser Permanente Educational Theatre (NCAL and SCAL)**

Celebrating over 35 years of service, Kaiser Permanente Educational Theatre has inspired and empowered millions of students and adults in communities across the United States to make healthy choices. Educational Theatre offers a wide range of award-winning theatrical productions and interactive workshops to schools throughout the Kaiser Permanente footprint.

Using the power of theatre and storytelling, our programs directly connect with students and adults through relatable characters and real-life situations. Audiences see themselves represented onstage in our culturally and ethnically diverse casts allowing them to connect with the narrative and educational messages in a meaningful way. Our team builds on this connection, inspiring students, and adults alike to make healthy choices and build stronger communities. Currently, there are 3 programs available in every Kaiser Permanente region.

## **E. Health Research, Education, and Training Programs**

### **Graduate Medical Education (GME)**

The Graduate Medical Education (GME) program provides training and education for medical residents and interns in the interest of educating the next generation of physicians. The program attracts some of the top medical school graduates in the United States and serves as a national model by exposing future health care providers to an integrated health care delivery system. Residents are offered the opportunity to serve a large, culturally diverse patient base in a setting with sophisticated technology and information systems, established clinical guidelines and an emphasis on preventive and primary care. The majority of medical residents are studying within the primary care medicine areas of family practice, internal medicine, ob/gyn, pediatrics, preventive medicine, and psychiatry.

### **Non-MD Provider Education and Training Programs**

Kaiser Permanente provides education, training, residences, internships, and/or scholarships and stipends for non-physician health care professionals in nursing, pharmacy, physical therapy, psychology, and radiology. This includes Northern California Region's Kaiser Permanente School of Allied Health Sciences, which offers 18-month training programs in sonography, nuclear medicine, and radiation therapy and Southern California Region's Hippocrates Circle Program, which was designed to provide youth from under-represented communities and diverse backgrounds with an awareness of career opportunities as a physician.

### **Health Research**

Kaiser Permanente's research efforts are core to the organization's mission to improve population health, and its commitment to continued learning. Kaiser Permanente researchers study critical health issues such as cancer, cardiovascular conditions, diabetes, behavioral and mental health, and health care delivery improvement. Kaiser Permanente's research is broadly focused on three themes: understanding health risks; addressing patients' needs and improving health outcomes; and informing policy and practice to facilitate the use of evidence-based care.

Kaiser Permanente is uniquely positioned to conduct research due to its rich, longitudinal, electronic clinical databases that capture virtually complete health care delivery, payment, decision-making and behavioral data across inpatient, outpatient, and to become health care professionals.

### III. Community Served

#### A. Kaiser Permanente's Definition of Community Served

Kaiser Permanente defines the community served by a hospital as those individuals residing within its hospital service area. A hospital service area includes all residents in a defined geographic area surrounding the hospital and does not exclude low-income or underserved populations.

#### B. Demographic Profile of Community Served

KFH-Moreno Valley and Coachella Valley service areas demographic profile

	Moreno Valley	Coachella Valley
<b>Total population:</b>	<b>328,320</b>	<b>538,393</b>
American Indian/Alaska Native	0.3%	0.5%
Asian	5.1%	2.9%
Black	13.8%	2.6%
Hispanic	61.0%	51.6%
Multiracial	2.6%	1.7%
Native Hawaiian/other Pacific Islander	0.4%	0.2%
Other race/ethnicity	0.2%	0.1%
White	16.6%	40.3%
Under age 18	29.0%	19.9%
Age 65 and over	9.0%	23.1%

SOURCE: AMERICAN COMMUNITY SURVEY, 2015-2019

### C. Map and Description of Community Served

KFH- Moreno Valley and Coachella Valley service areas

 Kaiser Permanente hospital     Kaiser Permanente medical offices

The KFH-Moreno Valley and Coachella Valley service area includes Cabazon, Cathedral City, Coachella, Desert Hot Springs, Indian Wells, Indio, Joshua Tree, La Quinta, March Air Reserve Base, Mecca, Moreno Valley, Morongo Valley, Nuevo, Palm Springs, Palm Desert, Perris, Rancho Mirage, Salton City, San Jacinto, Thermal, Thousand Palms, Twentynine Palms, Whitewater and Yucca Valley.

## IV. Description of Community Health Needs Addressed

KFH- Moreno Valley and Coachella Valley are addressing the following health needs during the 2020-2022 Implementation Strategy period. For information about the process and criteria used to select these health needs and the health needs that were not selected (and the rationale), please review the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

### A. Health Needs Addressed

1. **Access to Care:** Access to adequate health care and mental health care are persistent issues in the service area. Roughly 18% of people are uninsured in Moreno Valley, as are 14% in the Coachella Valley. The uninsured rate is much higher for these regions than the state of California as a whole, which is 12%. Of particular importance in Moreno Valley and Coachella Valley are access to services available in the community (e.g., nonprofits, free resources, etc.). According to the Moreno Valley Chamber of Commerce, only 11 nonprofit organizations are in this region-- a rather low number of organizations. There are more in the Coachella Valley. However, the region is so large that it is still often difficult to access resources. Access to care was selected as a priority area because it was deemed critical in a survey we conducted asking the community to identify which issues were most important. Additionally, access to care was selected because KFH-Moreno Valley and Coachella Valley find health insurance coverage to be essential to improving the health of our community.
2. **Mental and Behavioral Health:** Mental health has recently been identified as a high priority by the local community, as well as much of the nation. Data shows that residents in the KFH-Moreno Valley and Coachella Valley service area report having 3.9 poor mental health days per month. In comparison, California residents report 3.7 poor mental health days per month. Moreover, the racial/ethnic subgroup with the highest prevalence of poor mental health days fares 65% worse than average in Moreno Valley and 66% worse than average in the Coachella Valley service area. Behavioral health was selected largely due to growing community concern about the issue. Community members are concerned about minimizing the negative consequences of poor mental health such as suicide and interpersonal violence. At the same time, fewer poor mental health days ultimately equate to a greater number of good mental health days—which is at the heart of individuals flourishing.
3. **Economic Security:** Economic opportunities—such as education, jobs, affordable housing, and other opportunities to reduce poverty—are an upstream predictor of good health. Education, income, and access to gainful employment can equate to better health care and quality of life. Economic opportunity was consistently identified as a priority issue throughout community engagement. Data supports community input: the median household income for Moreno Valley is \$56,456, and the median for the Coachella Valley is \$51,042—both of which are lower than the median income for the state of California of \$64,500. Economic opportunity was selected as a priority area because it is a strong predictor of health. Poverty can affect education level, access to healthy foods, health behaviors, and long-term health outcomes. Interventions aimed at improving the predictors of health can result in better long-term outcomes.

4. **Obesity/Diabetes/Stroke:** Obesity has long been a priority in the community. Additionally, obesity is an upstream health issue that can lead to deadly health ailments such as heart disease and diabetes. The obesity prevalence rate in the region is exceedingly high— approximately 31% of Moreno Valley residents and 25% of Coachella Valley residents are obese. Obesity was selected as a priority area for several reasons. First, obesity can lead to other health issues—so minimizing obesity could potentially reduce the prominence of a variety of health problems (e.g., diabetes, heart disease, some cancers, stroke, etc.). In addition, obesity affects a high proportion of the population, it has been a priority area for KFH-Moreno Valley and Coachella Valley for quite some time, and there remains work to be done for our community in this area. As part of these efforts, KFH-Moreno Valley and Coachella Valley will also address food insecurity. Roughly 9.4% of people living in Riverside County experienced food insecurity at some point during the year. Ensuring that families have regular access to nutritious food is imperative for good long-term health.

## **B. Health Needs Not Addressed**

While all the health needs prioritized in the 2019 Community Health Needs Assessment process are important to address, the implementation strategy planning process requires KFH-Moreno Valley and Coachella Valley to conduct a selection process based on critical criteria including health need severity, magnitude, inequity, and the extent to which KFH-Moreno Valley and Coachella Valley are in a position to meaningfully address the need (see Section VII.A for a full description of selection criteria). Health needs that were not elevated across these critical criteria were not selected for the implementation strategy plan. Health needs not selected include asthma, cancer, and HIV/AIDS.

1. **Asthma:** Asthma was not selected as an area to address largely because the severity of the issue is not exceedingly alarming at this time— currently asthma results in a 13.3% reduction in length of life per year, which is lower than some of the other top health issues.
2. **Cancer:** Cancer was not selected due to low prevalence (3.9%) in Moreno Valley and (2.9%) in the Coachella Valley. In addition, there are currently community resources available to address the issue of cancer.
3. **HIV/AIDS:** HIV/AIDS was not selected because of low prevalence, affecting roughly 0.3% of the population in Moreno Valley and 0.2% of the population in the Coachella Valley. Lastly, there are other community organizations working to address HIV/AIDS.

## V. Year-End Results

### A. Community Benefit Financial Resources

Total Community Benefit expenditures are reported as follows:

- Medical care services for vulnerable populations include unreimbursed inpatient costs for participation in Kaiser Permanente-subsidized and government-sponsored health care insurance programs.
- Since 2006, figures for subsidized products have been reported on a cost-basis (e.g., the difference of total revenues collected for services less direct and indirect expenses).
- Grant and donations are recorded in the general ledger in the appropriate amount and accounting period on an accrual, not cash basis. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures are not available, dollars are allocated to each hospital based on the percentage of KFHP members.
- The unreimbursed portion of medical, nursing, and other health care professional education and training costs are included.

Resource allocations are reported, as follows:

- Financial expenditures are reported in exact amounts, if available, by hospital service area.
- If exact financial expenditure amounts are not available by hospital service area, then regional expenses are allocated proportionally based on KFHP membership or other quantifiable data.

**Table B****KFH-Moreno Valley and Coachella Valley Community Benefits Provided in 2022** (Endnotes in Appendix)

Category	Total Spend
<b>Medical Care Services for Vulnerable Populations</b>	
Medi-Cal shortfall <sup>1</sup>	\$7,418,560

## B. Examples of Activities to Address Selected Health Needs

All Kaiser Foundation Hospitals (KFH) carefully consider the evidence-base when determining which goals, strategies, and related activities would be most effective in addressing priority health needs. It is anticipated that successful implementation of key activities (programs, grants, collaboration, and/or in-kind assets), tied to key goals and strategies, can contribute toward improving the priority health needs in the community. For information on the goals and strategies that were selected for each health need, please refer to the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

Mechanisms for monitoring progress are tailored to each activity and may include the collection and documentation of tracking measures such as number of grants made, number of dollars spent, number of people reached/served, and number and role of Kaiser Permanente volunteers. Kaiser Permanente also conducts evaluation of larger grant initiatives to understand both progress and outcomes. In addition to internal monitoring and evaluation, Kaiser Permanente requires grantees to propose, track, and report outcomes of the projects for which they have received funding.

The below tables provide highlights for a select number of programs, grants, collaboration and/or assets that aims to address the identified health needs for KFH- Moreno Valley and Coachella Valley. The examples provided below are illustrations and not an exhaustive list. Where appropriate, summative information is provided for programs that have been implemented in multiple years.

The total number and amount of grants to address a health need include those that are awarded to organizations providing programs serving the KFH- Moreno Valley and Coachella Valley service area and may also serve other KFH service areas. In addition to the below examples, which address specific health needs, Kaiser Permanente, Southern California (SCAL) provided the following services:

- Educational Theater provided 6 events in KFH-Coachella Valley communities, reaching 490 youth and 18 adults across 2 locations.
- Educational Theater provided 23 events in KFH- Moreno Valley communities, reaching 12,260 youth and 561 adults across 4 locations.

In addition to the highlights outlined in the tables below to address specific health needs, Kaiser Permanente SCAL funded significant contributions to the California Community Foundation (CCF) in the interest of funding effective long-term, strategic community benefit initiatives. These CCF-managed funds, however, are not included in the financial totals for 2022.

Need	Examples of most impactful efforts
<b>Access to Care</b>	<p><b>Medi-Cal and Charity Care:</b> In 2022, KFH-Moreno Valley and Coachella Valley provided access to care to 22,169 Medi-Cal members and provided financial assistance to 4,081 people through the Medical Financial Assistance (MFA) program.</p>
	<p><b>Core Support for the California Health Care Safety Net Institute (SNI):</b> SNI's mission is to support California's public health care systems by shaping statewide health policy, providing performance measurement and reporting expertise, and accelerating decision-making and learning within and across member systems. SNI will work with California's public health care systems by designing and implementing programming that improves access to care and system capacity to deliver higher quality, more equitable, and efficient health care. (This impacts 15 service areas across SCAL)</p>
	<p><b>Core Support for California Primary Care Association (CPCA):</b> The mission of CPCA is to lead and position community clinics, health centers, and networks through advocacy, education, and services as key players in the health care delivery system to improve the health status of their communities. CPCA's core services include training, technical assistance, convenings, conferences, and peer networks. This will also support outreach activities to strengthen and engage membership and education of policymakers. (This impacts 15 service areas across SCAL)</p>
<b>Economic Security</b>	<p><b>Technical Assistance for Homekey 2.0 Applicants and Grantees:</b> The mission of Enterprise Community Partners, Inc. is to make home and community places of pride, power, belonging, and platforms for resilience and upward mobility for all. Enterprise Community Partners, Inc. was awarded \$750,000 over 1 year. Homekey is a statewide effort to sustain and rapidly expand housing for persons experiencing homelessness or at risk of homelessness. Enterprise Community Partners will provide technical assistance to Homekey applicants, including state, regional, and local public entities, to ensure successful applications and implementation of supportive housing. This grant is expected to provide 1,400 housing units. (This grant impacts 15 service areas across SCAL)</p>

Need	Examples of most impactful efforts
	<p><b>Inner City Capital Connections (ICCC):</b> Initiative for a Competitive Inner City (ICIC) drives inclusive economic prosperity in under-resourced communities through innovative research and programs to create jobs, income, and wealth for residents. ICIC was awarded \$180,000 over 1.75 years. ICCC helps Black, Indigenous, and people of color- and woman-owned businesses from under-resourced communities build capacity for sustainable growth in revenue, profitability, and employment. ICIC provides a comprehensive 40-hour curriculum combining executive education, mentorship and coaching, connections to business networks and contracting opportunities, and access to debt and equity capital. The grant is expected to serve 750 individuals. (This grant impacts 15 service areas across SCAL)</p> <p><b>Housing Insecurity Prevention Program:</b> The mission of the Habitat for Humanity International, Inc. Coachella Valley (HFHCV) is to bring people together to build homes, communities, and hope. HFHCV was awarded \$24,500 over 1 year. Housing Insecurity Prevention Program provides a multi-faceted approach to reduce the risks of housing and financial insecurity for low-income Riverside County households, including vulnerable seniors, communities of color, people with disabilities, and veterans. This grant is expected to serve 80 households by repairing safety hazards and property damage, emergency household needs assistance, and low-cost homes.</p>
<b>Mental and Behavioral Health</b>	<p><b>Achieving a Healthier Generation Through Thriving Schools:</b> The mission of the Alliance for a Healthier Generation, Inc. is to promote healthy environments so that young people can achieve lifelong good health. Alliance for a Healthier Generation, Inc. was awarded \$825,000 over 3 years for the project, Achieving a Healthier Generation with Thriving Schools. This will support school districts in under-resourced communities with implementing policies, systems, and environmental changes that will improve the health and well-being of students, staff, teachers, and families. This grant is expected to serve 854,135 students and teachers. (This grant impacts 15 service areas across SCAL)</p>

Need	Examples of most impactful efforts
	<p><b>Supporting California Children’s Behavioral Health:</b> The mission of Children Now is to find common ground among influential opinion leaders, interest groups, and policymakers to develop and drive socially innovative win-win approaches to helping all children achieve their full potential. Children Now was awarded \$300,000 over 2 years to build on and coordinate the State’s recent significant investments in school mental health. This work will help ensure all students and young people in California, especially those exposed to poverty, racism, or other adverse childhood experiences, have access to the behavioral health supports they need to thrive. (This grant impacts 15 service areas across SCAL)</p> <p><b>Riverside County Substance Use Prevention and Mental Health:</b> Reach Out West End’s mission is to strengthen communities by bringing people together to break barriers to educational achievement, expand economic opportunities, and create safe, healthy, and innovative communities. Reach Out West End was awarded \$25,000 over 1 year to reduce mental health stigma and improve knowledge, capacity, and resilience in individuals and communities by offering substance use prevention and mental health training and services. This is expected to serve 1,200 teachers, school staff, and youth. (This grant impacts 2 service areas)</p>
<b>Obesity/Diabetes/Stroke</b>	<p><b>100 Mile Club School Program:</b> The mission of the 100 Mile Club, Inc. is to engage and empower students and families to achieve a healthy lifestyle through physical activity and preventing childhood inactivity and obesity, one child, one school, and one community at a time. 100 Mile Club was awarded \$25,000 over 1 year for the 100 Mile Club School Program. This grant is expected to serve 2,010 individuals by engaging students and families to be healthy and active. (This grant impacts 2 service areas)</p> <p><b>Healthy Eating Healthy Families:</b> The mission of Family Services of the Desert, also known as Food Now, is to improve the quality of life for residents in western Coachella Valley by providing food assistance, community outreach, and support services to strengthen low-income, vulnerable, and at-risk families and build healthy communities. Family Services of the Desert was awarded \$25,000 over 1 year. This grant is expected to serve 3,000 homeless and school-age individuals.</p>

## VI. Appendix

### Appendix A

#### 2022 Community Benefits Provided by Hospital Service Area in California

## Appendix B

### Endnotes

- <sup>1</sup> Amount includes hospital-specific, unreimbursed expenditures for Medi-Cal Managed Care members and Medi-Cal Fee-for-Service beneficiaries on a cost basis.
- <sup>2</sup> Amount includes unreimbursed care provided to patients who qualify for Medical Financial Assistance on a cost basis.
- <sup>3</sup> Figures reported in this section for grants and donations consist of charitable contributions to community clinics and other safety-net providers and support access to care.
- <sup>4</sup> Applicable to only SCAL - Watts Counseling and Learning Center's service expenses are divided among three hospitals: KFH-Downey, KFH-South Bay, and KFH-West Los Angeles. Educational Outreach Program service expenses are only applicable to KFH-Baldwin Park.
- <sup>5</sup> Figures reported in this section are expenses for youth employment programs for under-represented populations.
- <sup>6</sup> Figures reported in this section for grants and donations consist of charitable contributions to community-based organizations that address the nonmedical needs of vulnerable populations.
- <sup>7</sup> The amount reflects the costs of the community benefit department and related operational expenses.
- <sup>8</sup> Figures reported in this section for grants and donations are aimed at supporting the general well-being of the broader community.
- <sup>9</sup> Amount reflects the net expenditures for training and education for medical residents, interns, and fellows.
- <sup>10</sup> Amount reflects the net expenditures for health professional education and training programs.
- <sup>11</sup> Figures reported in this section for grants and donations consist of charitable contributions made to external nonprofit organizations, colleges, and universities to support the training and education of students seeking to become health care professionals.
